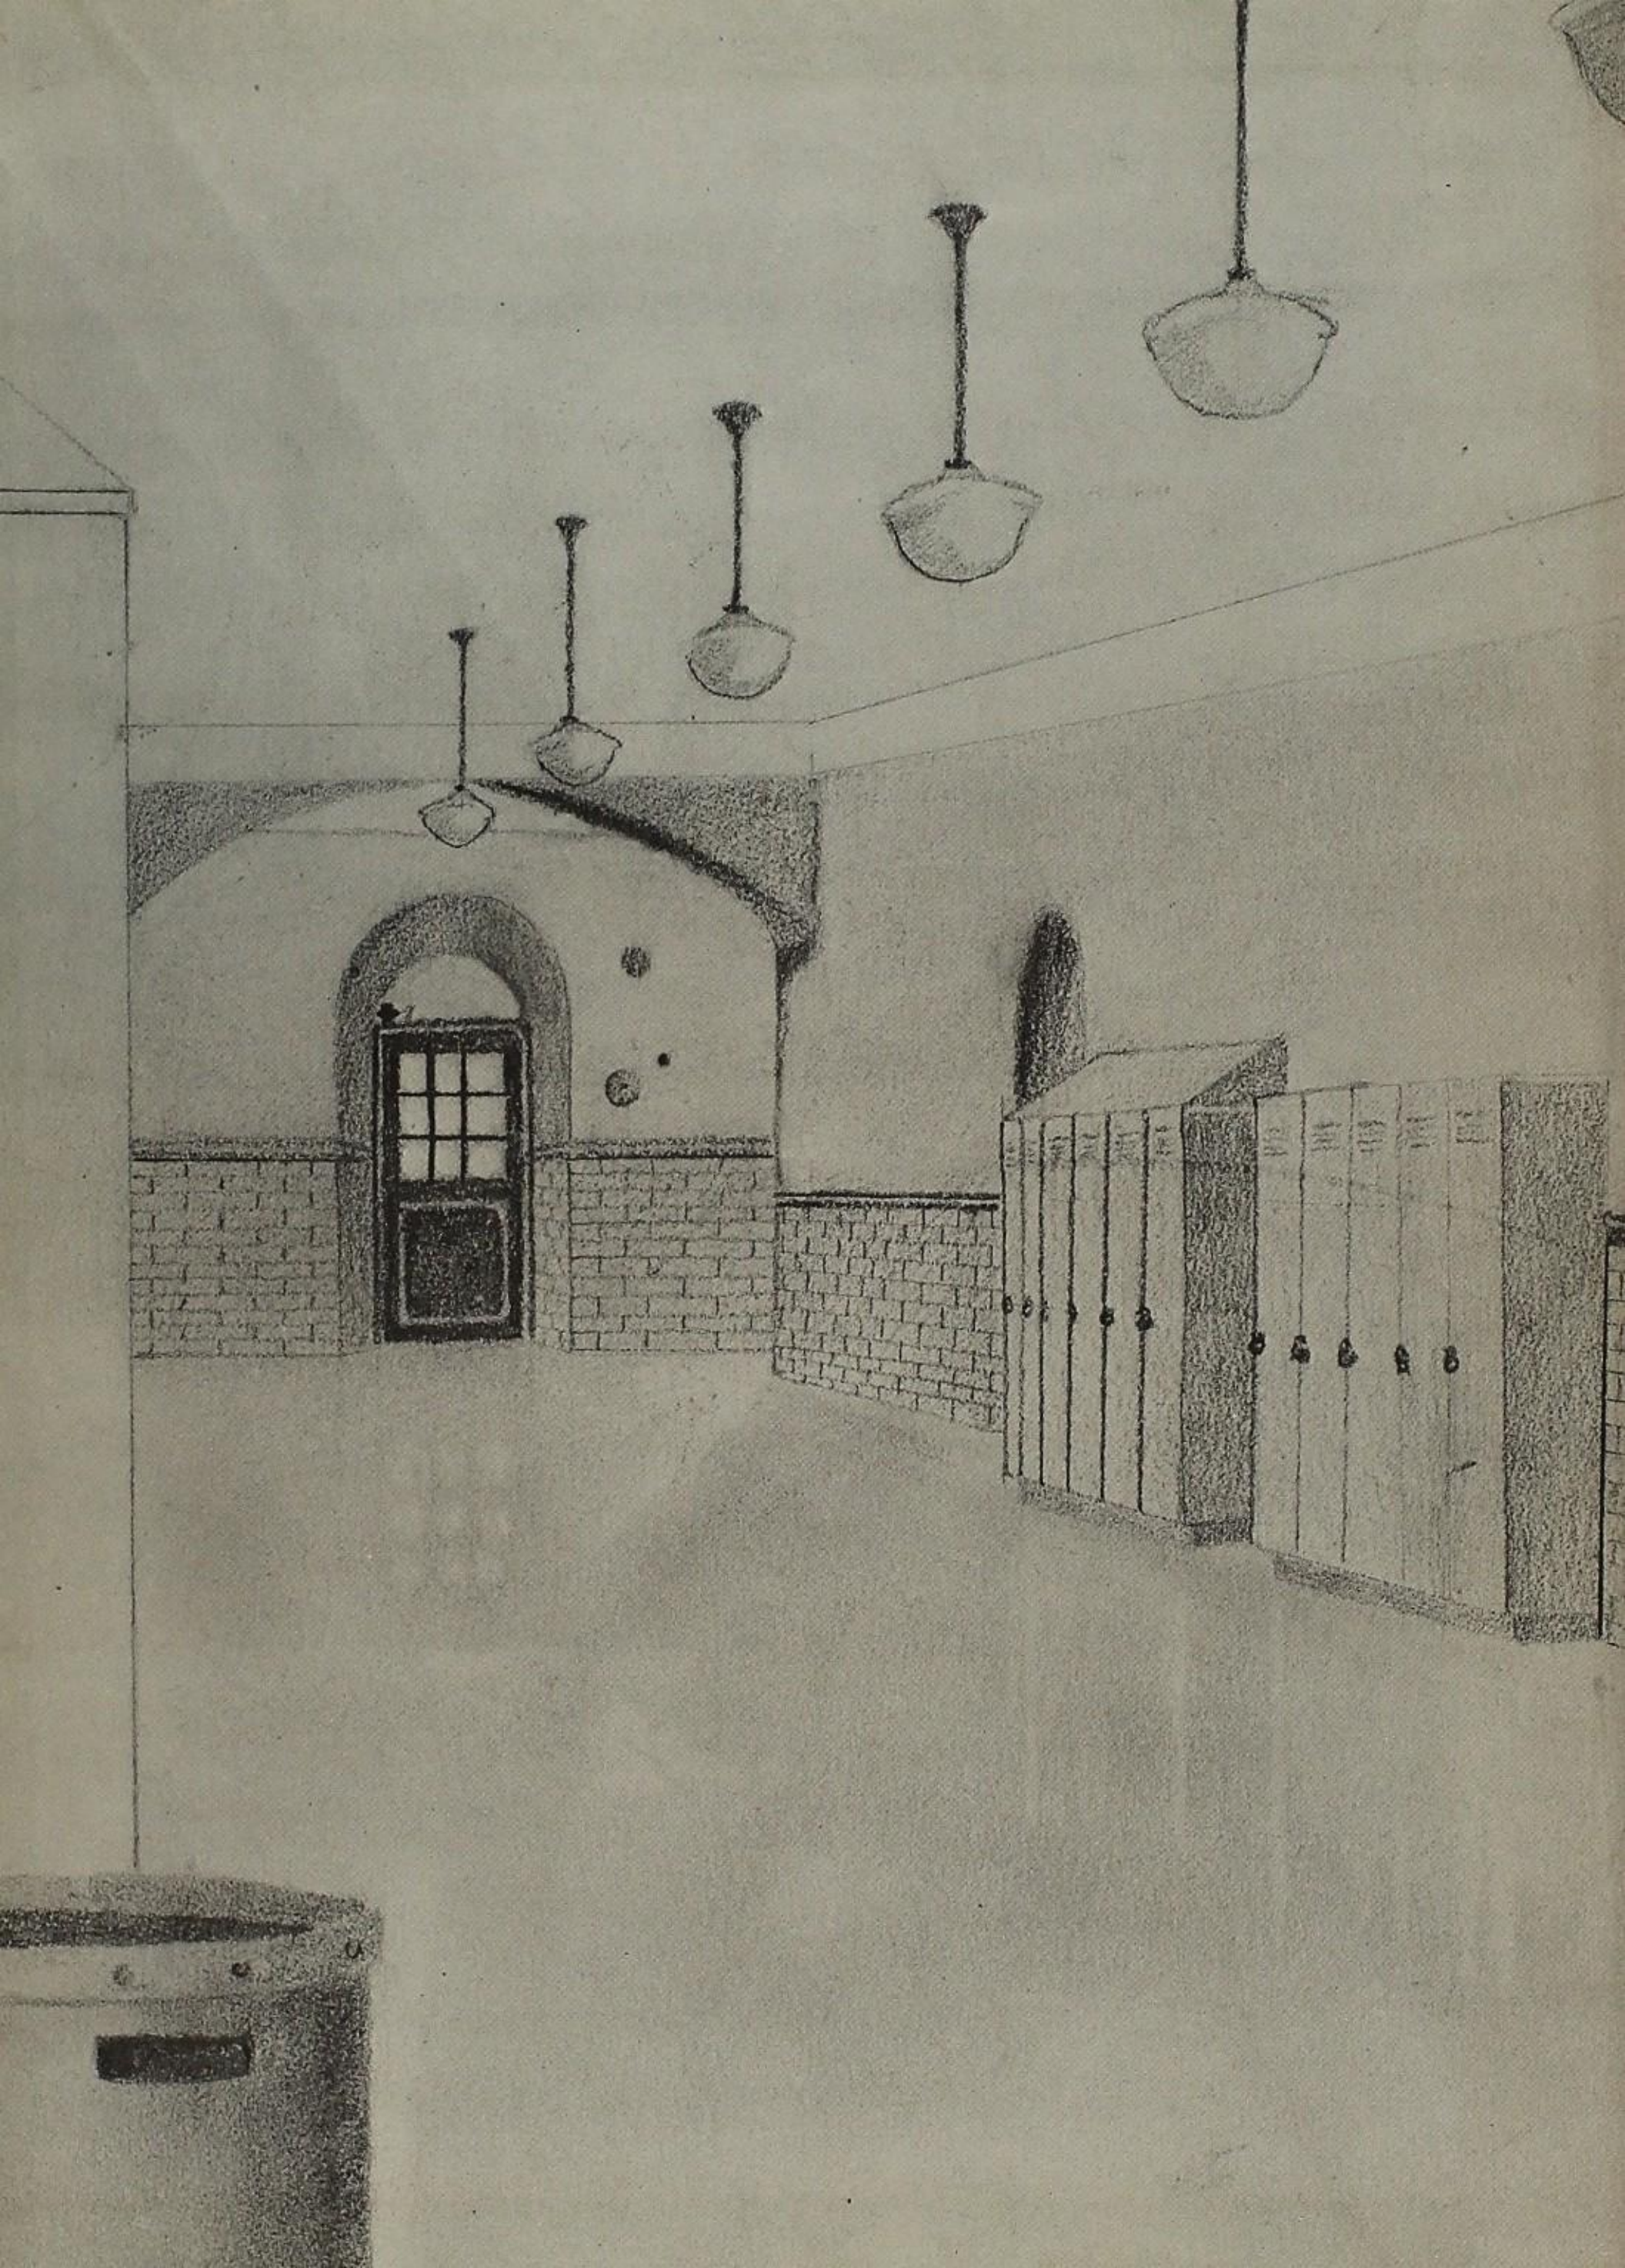
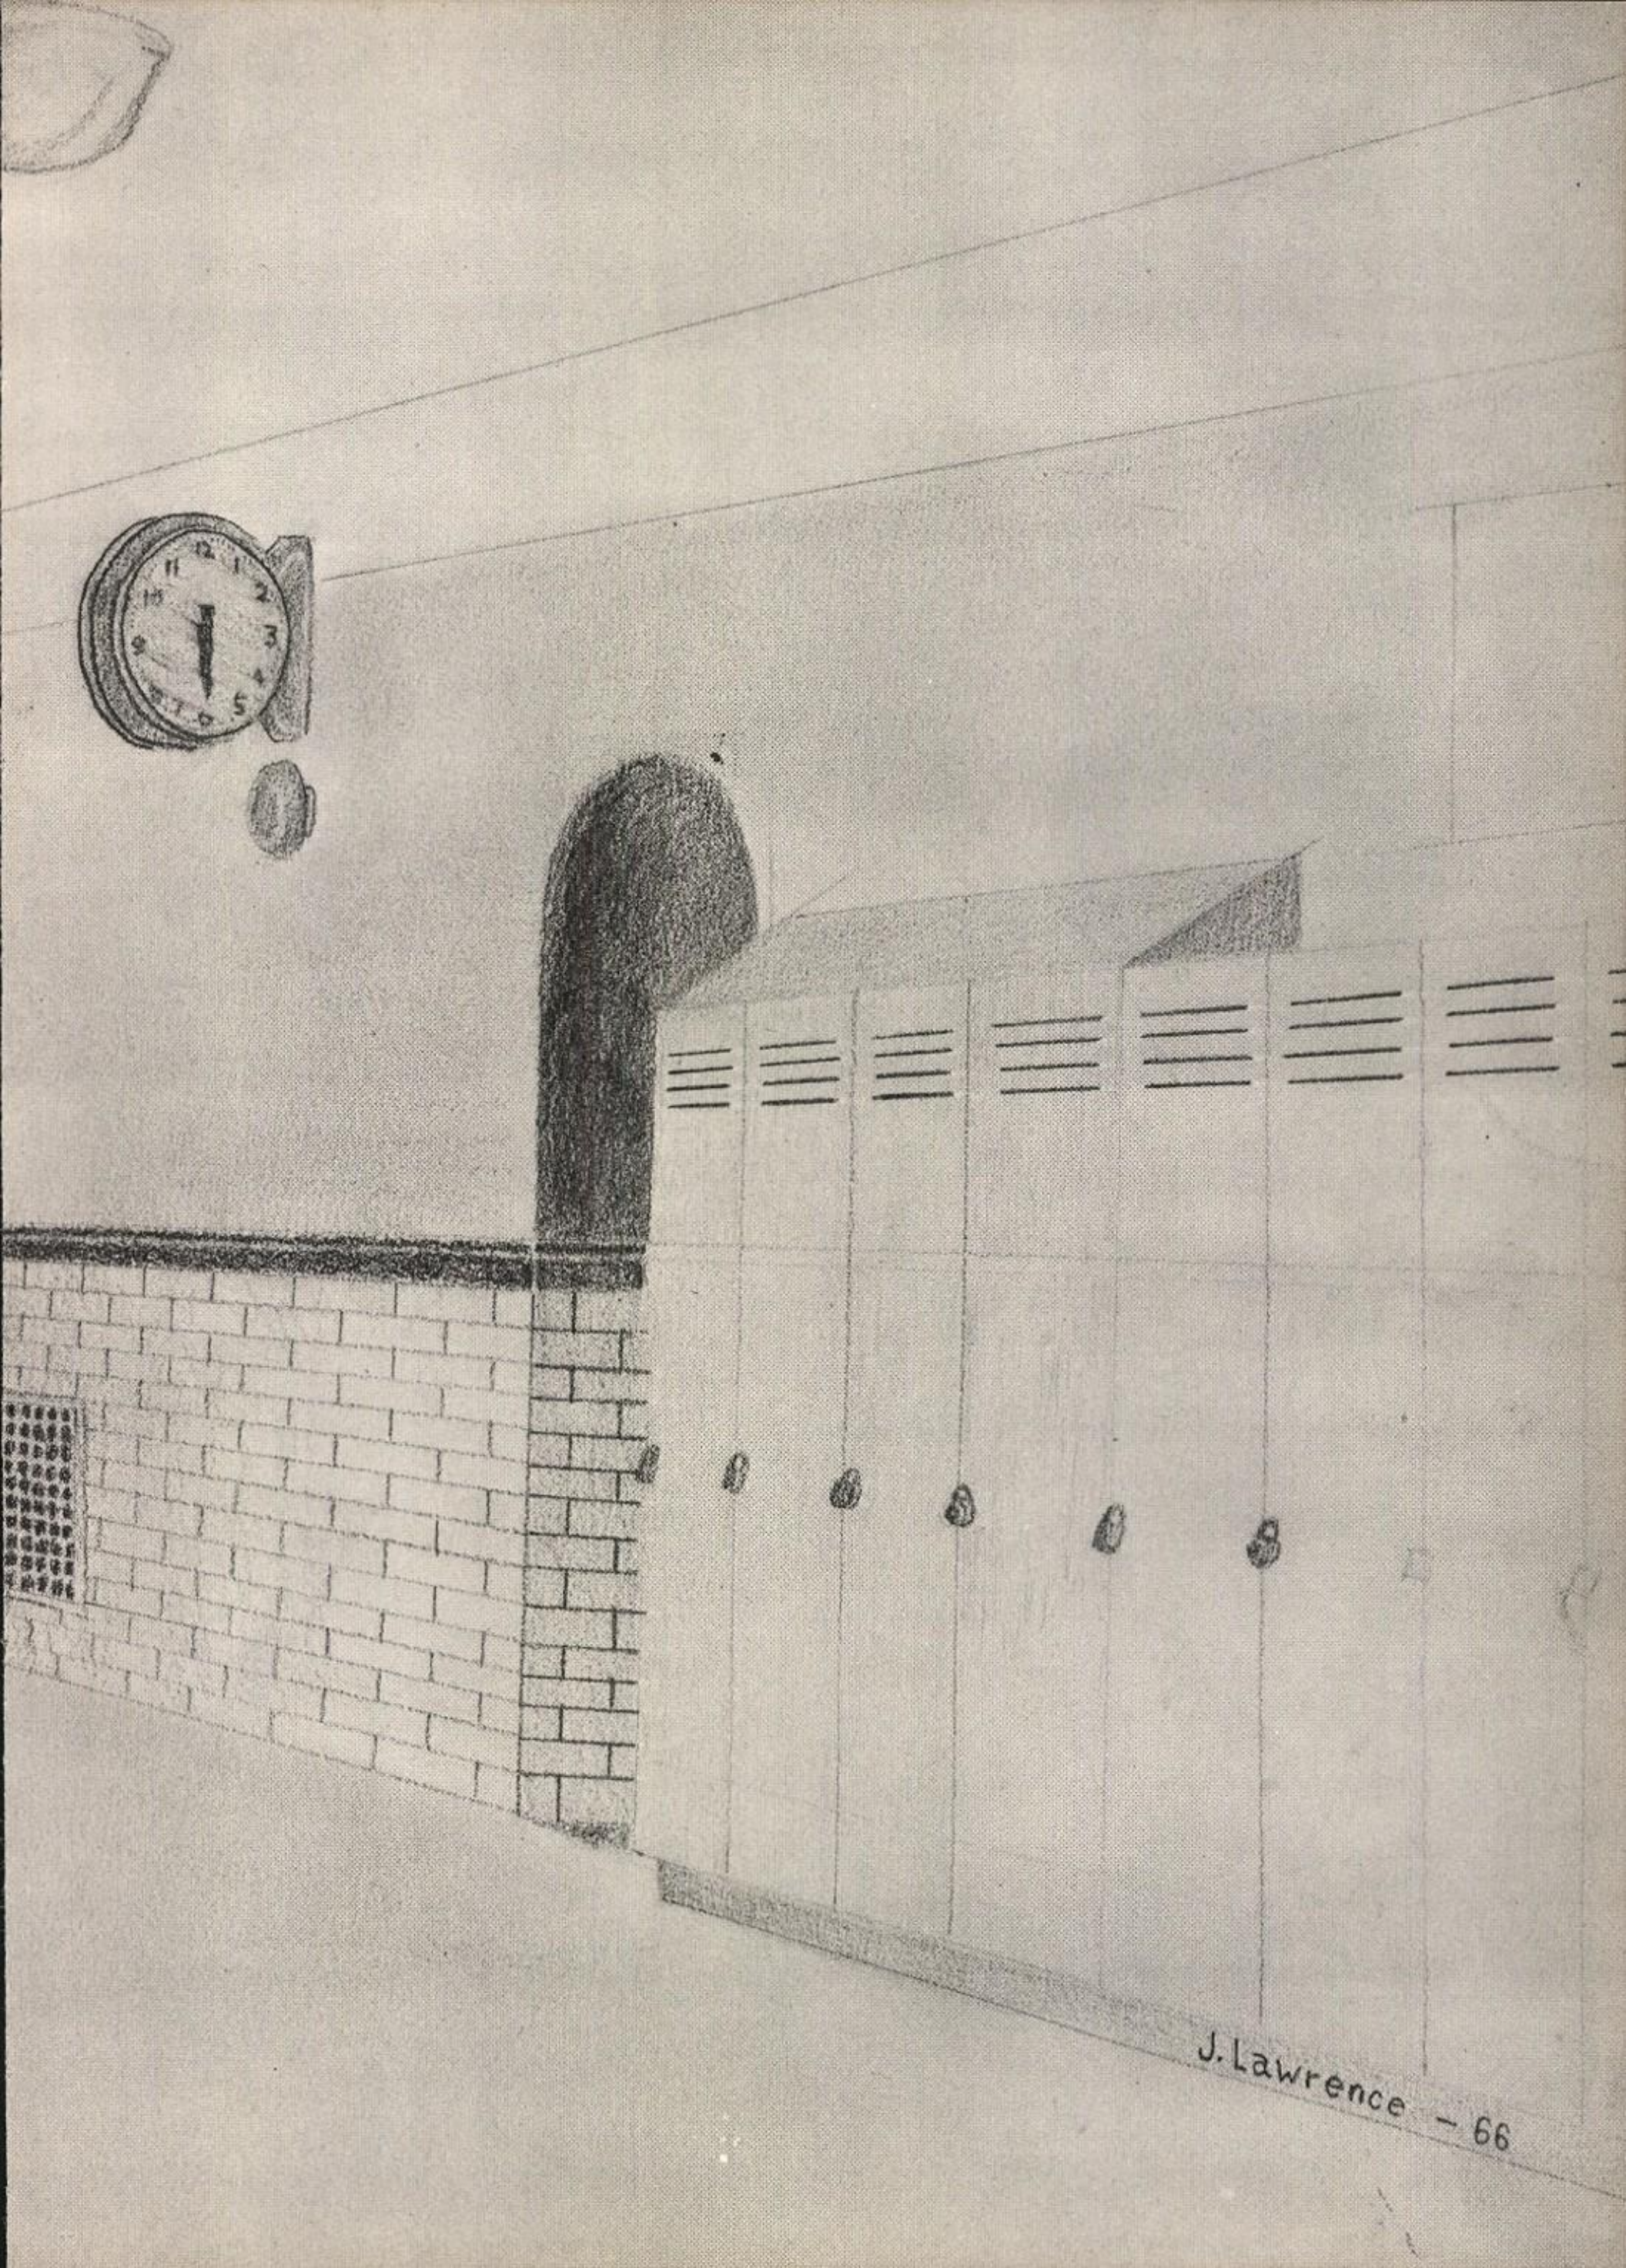
SIXTY - SIX

SKETCHBOOK

NINETEEN





J. Lawrence – 66

To everything there is a season, and a time to every purpose under the heaven.

A time to be born, and a time to die: A time to plant, and a time to pluck up that which is planted.

A time to kill, and a time to heal: A time to break down, and a time to build up:

A time to weep, and a time to laugh: A time to mourn, and a time to dance:

A time to cast away stones, and a time to gather stones together: A time to embrace, and a time to refrain from embracing:

A time to get, and a time to lose: A time to keep, and a time to cast away:

A time to rend, and a time to sew: A time To keep silence, and a time to speak:

A time to love, and a time to hate, a time of war, and a time of peace.

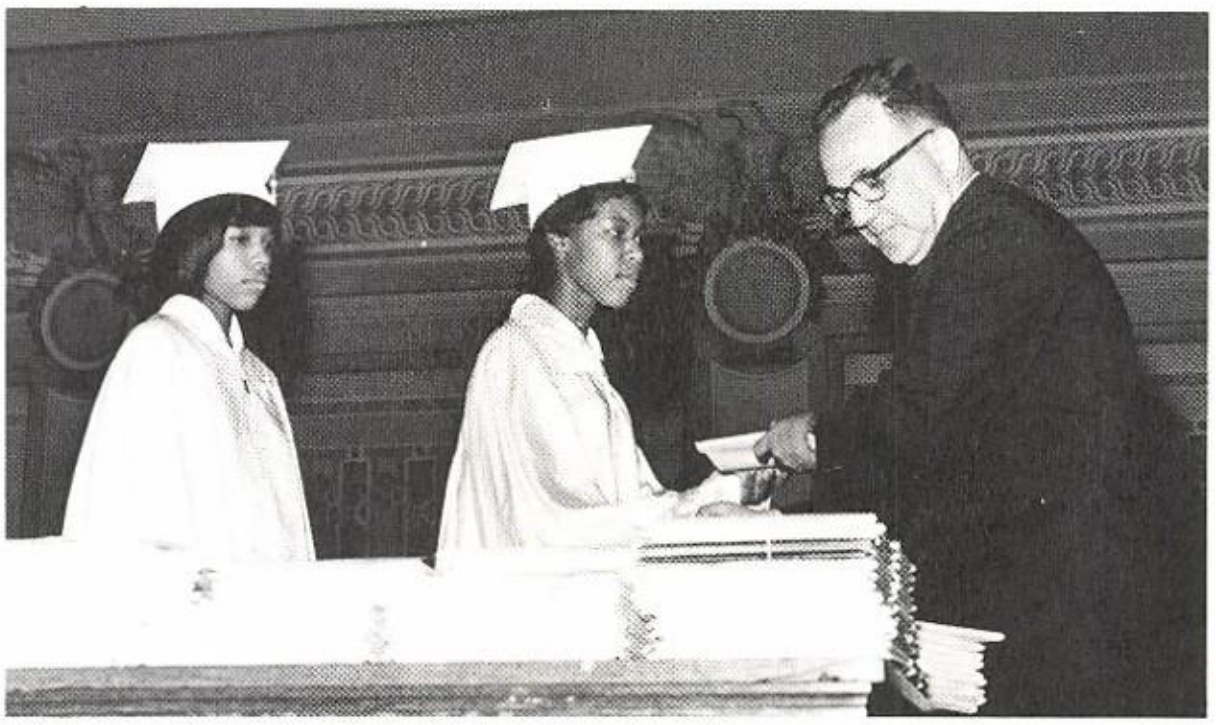
What profit hath he that worketh in that wherein he laboureth?

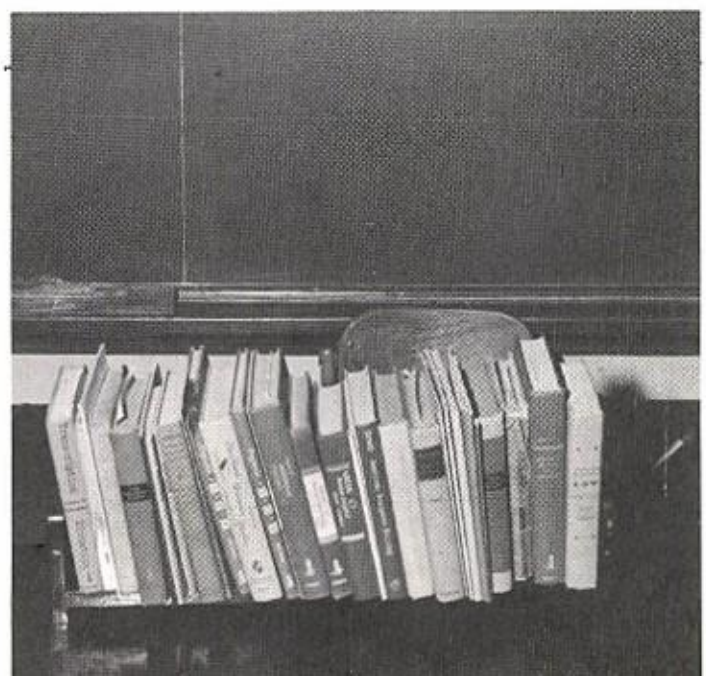
Ecclesiastes CH 3 1-9 Vs.

The universe is characterized by its division and order. To every aspect a proper time has been assigned. If this were not so, planets would move at random, temperatures would soar and plunge, continents would emerge and submerge. For man, too, this is true. There is the time for man to grow, in mind and body; there is the time for man to work and to play; there is the time for man to fade, in glory and in body. Man experiences this as the weaver Fate weaves the thread of life onto the loom of Eternity.

"There is a time to plant and a time to pluck up that which is planted." As the time for formal education ends in the life of a senior, the time for self-assertion begins. As the fruit of the tree begins to form at the approach of summer, so the senior begins to mature at his commencement.

What profit hath he that worketh in that wherein he laboureth.





Justice and counsel are the administration's primary concern. The school's very existence thrives on the industry of its administrators. They exert the necessary force to keep the school uplifted.

SKETCHBOOK

Music, expression of man's soul, diverts him from the strain and stress of daily toil. From primitive times, man has tried to arrange sounds in a harmonious pattern. Music, an achievement in his developement, separates him from other living species and refines his humanity.

Mrs. Nicholes

From trying to make harmonious sounds with his own voice, man progressed to making instruments. He discovered he could make different ones. He went on to make combinations of these instruments and made separate parts from the tune of his song. Rather than playing in unison, various sounds were played at the same time, but still the music was in harmony.

Our orchestra at Westinghouse owes its origin to early man's efforts to make his world tuneful and relaxed. The A Orchestra, composed of sophomores, juniors, and seniors, is directed by Mr. Ferdinand Tuelle. In addition to performing for assembly programs, they present a Spring Concert annually.

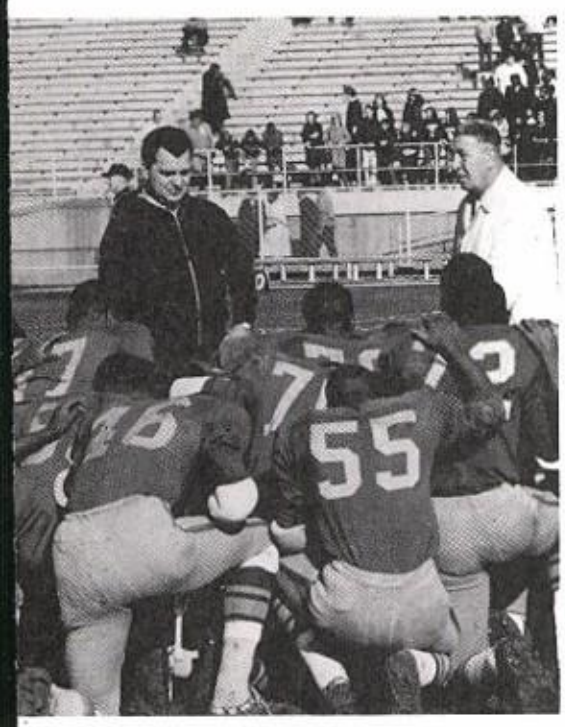
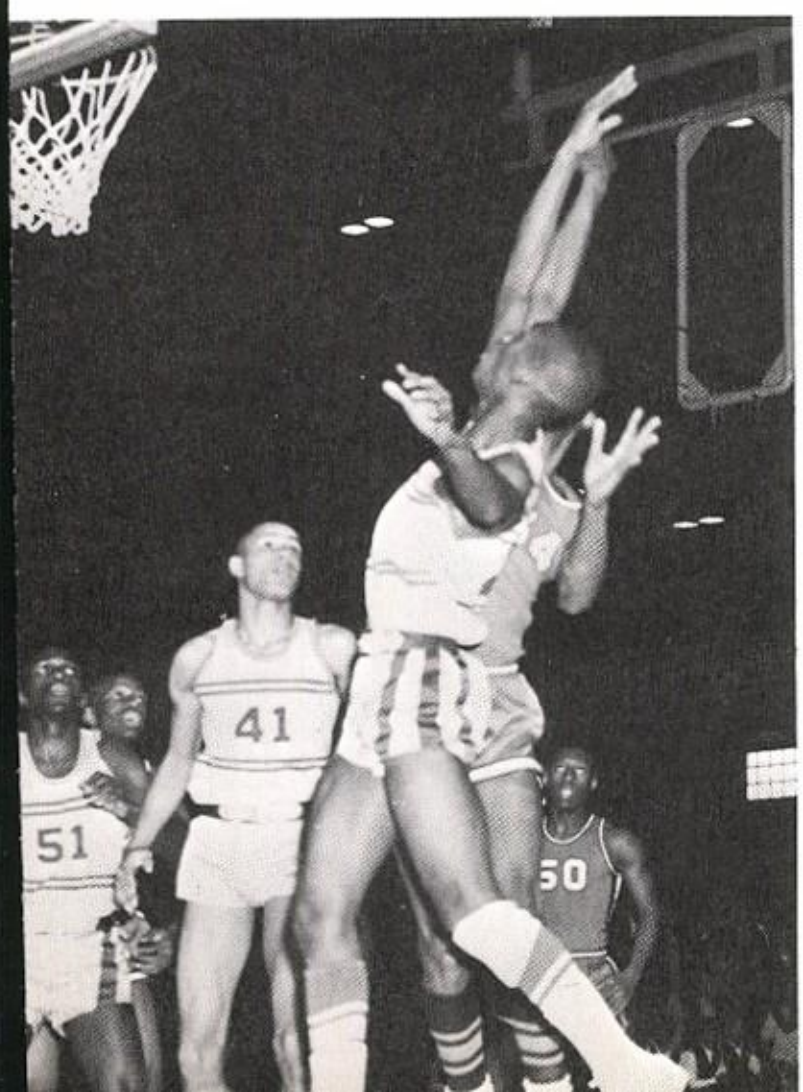
A time of war . . .

. . . and a time of peace





Sports have been a form of amusement and play extending as far back as ancient Greece. Although sports awaken a competitive drive within the athlete, the mortal combat never escapes the boundary of a "friendly war". Knowledge, stratagem and strength are prerequisites for the players before venturing into foreign arenas. Conquest is ardently desired, but defeat summons tears. With a tacit prayer and martialed forces, however, they once again vie for victory.
